Carpentry & Joinery

Duration: 24 months

Delivery Model: Day Release

Overview

This occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components.

At Moulton College we offer 2 specialist pathways they are:

A Site Carpenter will prepare and install basic building components e.g. doors, straight staircases, wall and floor units and erecting structural carpentry and roof structures on a building site or in domestic and commercial premises.

An Architectural Joiner will produce building components by setting out, making out and manufacturing basic architectural products, including doors, windows, and straight staircases and associated ironmongery.

Skills an apprentice will learn

- Work safely and be aware of key health, safety and welfare issues.
- Plan and carry out their work to commercial standards of quality and speed.
- Move, handle and store resources, such as materials and timber components, complying with relevant legislation & guidance.
- Interpret and follow verbal and written work instructions from trade supervisors and site managers.
- Select the required materials to carry out the work, such as correct timber, tools, and fixings.
- Access, interpret and use drawings and specifications to carry out their work.

Potential Progression Routes

- Level 3 Carpentry & Joinery

End Point Assessment Content

Knowledge test, practical test and an interview based on the portfolio.

Qualification Awarded

- Apprenticeship certificate
- Level 1 and/or Level 2 Maths and English (if applicable)
