Carpentry & Joinery

Duration: 24 months

Delivery Model: Day Release

Overview

This occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components.

At Moulton College we offer 2 specialist pathways they are:

A Site Carpenter will prepare and install basic building components e.g. doors, straight staircases, wall and floor units and erecting structural carpentry and roof structures on a building site or in domestic and commercial premises.

An Architectural Joiner will produce building components by setting out, making out and manufacturing basic architectural products, including doors, windows, and straight staircases and associated ironmongery.

Potential Progression Routes
