

# Site Carpentry

## Diploma Level 2

STUDY MODE  
Part time

LOCATION  
Moulton

LEVEL  
Level 2

START DATE  
16 September 2024

DURATION  
1 year

Carpentry and Joinery students have access to an exciting range of specialist resources at the College. Our state-of-the-art workshops are equipped with specialist tools and resources for a wide range of creative craft subjects. We are able to offer you the opportunity to develop your skill set to the highest level and prepare you for your future career.

Guided by our specialist staff and expert guest lecturers you'll develop your skills in joint making, use portable power tools and second fix carpentry work.

## What will I learn on the course?

This course will advance your knowledge of proper carpentry practice whilst on site. Students will develop their woodworking skills as well as widen their knowledge of construction technology and tool maintenance. You will also be taught the safe set-up and operation of a circular saw. You will gain a general understanding of theory and develops the practical skills needed to work as a carpenter or joiner. This includes hanging doors, fixing architrave and skirting, constructing kitchen and bathroom units and setting out and fixing roofs. You will cover modules including:

- Principles of building construction, information and communication - A deeper insight into the different aspects of the construction industry.
- Carry out first fix flooring and roofing - How to erect and install floor joists, floor coverings and roof components.
- Carry out first fix frames, partitions and stairs - How to erect internal partition walls, doorframes and linings also stairs and balustrading.
- Carry out second fix operations - Learn how to hang a door, install latches and fix architrave and skirting. Also how to install kitchen units and jointing worktops.
- Carry out carpentry maintenance - This unit includes replacing sash cords, installing guttering and splice repairs to timber.
- Set up and operate a circular saw - How to safely change blades and use a table saw.

## What will this course cost me?

Course cost: £1,085
