Moulton

LEVEL  
Entry Level 2

START DATE  
Sept 2025

DURATION  
1 year

AWARDING BODY  
Recognising and  
Recording Progress and  
Achievement

Designed for young people who have attended special schools or who have not attended mainstream education in the past, supported learning students have access to an exciting range of specialist resources at the College.

This course is the next step on the journey of Study for Life and Work Skills, or you can enter straight onto this level. Preparing you for adulthood, this course will teach you practical skills across your chosen subject.

You'll be learning in small groups, led by a lecturer and supported in the classroom by our friendly Learning Support Assistants. You'll get to stay in the same group for all of your subjects, apart from the vocational module, where you will be mixed with another group of students doing the same level, but still in small groups.

## What will I learn on the course?

You will learn a wide range of skills including communication skills, team building, problem solving and many more that will help you as you progress into adult life.

You will develop your English and Maths skills in a fun, interactive environment to prepare you for life after college.

Your lessons will be both in and out of the classroom. These will include: Cooking, Personal & Social Development, Preparing for Adulthood and your chosen vocational subject.

As part of your Personal and Social Development session you will do:

- Term 1: Travel training
- Term 2: Enrichment activities
- Term 3: A group work experience related to your vocational subject.

Vocational subjects are either:

- Small Animal and Horse Care or
- Land-Based Studies (including agriculture, countryside and horticulture)

## What does a typical week look like?

You will spend one day on vocational options in the various vocational areas of the College.

The other two days will be spent undertaking your Preparing for Adulthood, travel training, Maths and English, cooking and tutorials. You will spend a morning or afternoon out and about either travel training, undertaking enrichment activities or doing work experience.

Supported Learning have rooms at the Pitsford and Main Site areas of college.

There is supervision at all times but students are encouraged to use the coffee shop or canteen for meals so will be in contact with other students in college.

## How will I be assessed?

The work you undertake within lessons will be assessed by lecturers at the time and you will be given verbal and written feedback. You may be asked to complete some work at home. For Maths and English you will undertake Functional Skills or other appropriate written or computer based exams.

## Where can it lead to?

This course can lead to the Entry Level 3 Progressing in Life and Work Skills course or alternative provision.

## What are the entry requirements for this course?

No formal qualifications are required, but you will need to attend an interview to identify your interests and support needs.

## How will this course help me to understand environmental and sustainability issues?

As part of your lessons you will complete a project that incorporates awareness of environmental issues and giving back to the community. During Preparing for Adulthood you will organise a charity focused project where you look into helping and supporting the community by reducing waste into the environment by collecting donations for charities, or completing litter picks in your communities working with Friends of the Parks.
